

As per 'The Control of Asbestos Regulations 2012' training must be refreshed annually or more frequently if there are changes to, work methods and types of work, equipment used or when gaps in competency are identified. Refresher Training should be based on a Training Needs Analysis (TNA) to ensure the skills and knowledge are maintained and developed on an ongoing basis.

Duration	Certificate	Number of Participants	Delivery	Assessment
Full Day	Valid for 1 Year	Up to 8	Classroom Instruction	Multiple Choice and Practical

Who is it for?

This course is designed for existing managers who have completed initial training previously and require refresher training to maintain and develop knowledge and skills.

What does it cover?

The course syllabus for training is laid down in HSG 247, Chapter 4.

Content is tailored to the individual and can cover a combination of modules undertaken in New Manager Training including Industry Updates such as Regulation change, ACOPS and new industry practices.

On completion of the course:

All candidates successfully completing the course in full will be awarded a UKATA Training Certificate.
