

The objective of the course is to provide training for individuals who wish to operate a dozer at a competent level. This can be delivered either as an in-house training course or CPCS course.

Duration	Certificate	Number of Participants	Delivery	Assessment
Dependent upon candidate ability and experience	In-house or CPCS	1-4	Classroom and Practical	Theoretical and Practical Tests for CPCS

### Who is it for?

All Plant Operators who use dozers. This course is suitable for novices, intermediate level or experienced operators who need to refresh their skills or achieve the relevant CPCS Card.

### What does it cover?

All aspects of theoretical and practical skills in the operation of a dozer:

- Identify the basic construction, purpose and function of components and the purpose and use of controls and gauges.
- Identify and comply with manufacturers' instructions in accordance with the operator's handbook, other information sources and applicable legislation.
- Carry out pre-start checks.
- Set the dozer for site travel.
- Travel over different types of terrain, including rough, undulating ground.
- Travel up and down substantial inclines.
- Manoeuvre in confined areas using forward and reverse direction.
- Explain precautions to be taken for underground services and other hazards.
- Form different sizes of stockpiles by cutting below ground level.
- Cut, side-cast and spread material using the blade at an angle.
- Spread and level stockpiles to specification.
- Place the dozer in and out-of-service condition.
- Explain the loading procedure on and off a transporter.

### On completion of this course:

All in-house candidates successfully completing the course in full will be awarded an MGL Group Training Services Certificate.

All CPCS candidates after achieving their CPCS Theory and Practical Technical Tests shall receive their CPCS Red Trained Operator Card, valid for 2 years.
