

OUR COMMITMENT

This policy statement forms part of our overall management system which is certified to ISO 9001: 2015, ISO 14001: 2015 and OHSAS 18001

MGL Demolition fully understands the short and long term economic, environmental and social impacts of our business, and strives to make consideration of these activities integral to our decision making.

Responsibilities: The responsibility for determining company policies is derived by the Board of Directors. Mark Davison (Managing Director) has been appointed as having overall responsibility for this policy.

Priorities, Aims and Objectives:

The company is committed to being a responsible business and to ensuring that sustainability is paramount to all activities within our company.

Protecting the Environment:

We will strive to improve our energy efficiency, reduce our CO₂ emissions and work with clients and designers to provide low carbon solutions. We will promote greater resource efficiency and reductions on water use.

Resources: We will manage our environmental impacts by monitoring and using natural resources efficiently. We will source materials responsibly and collaborate with our clients, designers and supply chain to provide alternative materials and demolition methods to optimise the use of raw materials. We will promote measures to recycle and minimise waste.

Biodiversity: We will take all reasonable measures to understand and manage our impact upon biodiversity and the local environment. We will promote good environmental practice and seek opportunities to enhance biodiversity on our projects.

Respecting the Needs of People:

Clients and Stakeholders: We will work in partnership with our clients and stakeholders to deliver quality projects, on time, safely and with due regard to the environment. We will encourage our clients and stakeholders to choose low carbon options, sustainable design, materials and demolition methods.

Community: Community engagement is an integral part of our culture and how we operate in the delivery of our projects. Our aim is to ensure that we leave behind a real legacy in and around the communities where we operate.

The MGL Foundation Trust is a charitable organisation set up by the MGL Group with the aim of strengthening the role the company has to play in the local community. We donate time, money and materials to various community groups and charities, particularly those associated with children, engaging with education, the elderly and our local hospice.

Employees: We offer our employees opportunities for continued learning and professional personal development. We are committed to continually improving the health and safety of our employees, supply chain and all those affected by our activities.

Supply Chain: We will work with our supply chain to promote and develop sustainable solutions that maximise value for clients and stakeholders. We will treat our supply chain partners fairly and responsibly.

Economic Value:

We will aim to create value for all stakeholders and the wider community by operating both profitably and sustainably.

Communication of Policy: This policy is communicated to all employees and is made available to any interested party.

Policy Review: This policy statement will be reviewed on an annual basis and amended where appropriate.

Mark Davison
