

OUR COMMITMENT

This policy statement forms part of our overall management systems which is accredited to BS EN ISO 14001:2004

As a market leader in the field of demolition, MGL Demolition recognises that our activities have an effect on the environment and as a consequence attach importance to the continuous improvement of our environmental performance and the prevention of pollution. MGL Demolition Ltd recognises its responsibilities towards protection of the environment and this statement is issued as a commitment of both the management and employees to reduce the adverse and increase the beneficial environmental impacts of its operations.

Policies

- To meet and where practical exceed the requirements of all relevant environmental legislation, Regulations, Codes of Practice and client specifications.
- Minimise the risk to the environment, general public and employees from operations and activities undertaken by the company.
- Conserve resources through efficient use and careful planning, reducing the consumption of energy, water and materials wherever possible.
- As appropriate, consider and inform the client of possible opportunities to reduce impact and improve the environmental performance of intended works.
- Protect the local environment and respect wildlife habitats in the deployment and storage of plant and equipment.
- Implement works procedures and practices to prevent pollution, and minimise any potential dust and noise disturbance to neighbours.
- Reduce the creation of waste and encourage recycling.
- Ensure all waste is promptly disposed of in a safe and responsible manner, and leave sites clean and tidy.
- Liaise with and maintain good relations with all regulatory bodies and the general public.

- Raise employee awareness of environmental issues and the environmental effects of company activities through induction and training sessions.
- Develop our Environmental Management System, implement our policies, procedures and promote improvement.
- Continually assess the environmental impacts of our activities and conduct an annual self-evaluation of our performance, policy implementation and legal compliance.
- Expect similar environmental policies and standards from our suppliers and subcontractors.

Environmental Management System:

We will maintain our management systems in accordance with our BS EN ISO 14001:2004 certification ensuring all instructions, policies and procedures are applied to all work activities.

Communication of Policy: This policy is communicated to all employees and is made available to any interested party.

Policy Review: This policy statement will be reviewed on an annual basis and amended where appropriate.
