

MGL GROUP

RESHAPING THE BUILT ENVIRONMENT

Higher Apprenticeship Opportunity in Mineral Products Technology

Launch your career with **MGL Group**, one of the North of England's largest privately-owned construction companies. Join our Asphalt Production and Quarrying business, **Tynedale Roadstone**, and become a vital part of our laboratory team at our Newburn Asphalt Plant in Newcastle (NE15 8SG).

You will directly contribute to the development and testing of **sustainable materials**. If you are passionate about **innovation** and **minimising environmental impact**, join us in shaping the future of our industry and **paving the way to net zero!**

The Opportunity

In this role, you will be at the heart of quality control and product innovation, directly contributing to the production of asphalt and quarried aggregates. Your work will involve sampling and testing raw materials and finished products from our asphalt plant and three quarries, maintaining accurate records, and gaining hands-on experience with our production processes.

Your first year will provide a strong foundation, with training in areas such as Personal Learning and Thinking Skills, Introduction to the Minerals Products Industry, Extractive Technology, Minerals Processing, Asphalt Technology, and Pavement Management and Design.

As you progress, you will have the opportunity to specialise in mineral extractives, asphalt and pavement, cement, concrete, and clay.

Innovative Materials

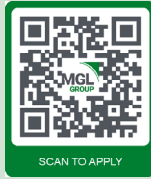

His Royal Highness Prince William recognised our **innovative approach** during a recent royal visit to the **North East**. MGL Group's Chief Executive, Dave Elliott, participated in a meet-and-greet discussion on sustainable solutions for **decarbonising the built environment**.

Low Carbon Materials

Join Team MGL

To register your interest, please contact our Head of Research & Product Development at **01325 377 223** or dave.whitehouse@mglgroup.co.uk.
